

EcoValve™

A fully WRAS approved resilient seat gate valve

Our fully WRAS approved gate valve for water is supplied with superior coating. This not only eliminates the need for additional wrapping before installation, but provides additional protection against corrosion.

- DN50-300
- Clockwise closing and anti-clockwise closing
- Stainless steel 316 bolts and nuts
- Fitted with cap top as standard
- Low maintenance gate valve for long term cost saving benefits
