

OptiValve™ & OptiValve Plus™

Our F4 OptiValve™ and OptiValve Plus™ resilient seat gate valves offer outstanding performance, maximum leak-tightness, durability and longevity.

- DN40-300
- Fully GIS/V7 approved
- Shorter face to face = space saving and cost reduction
- Ideal for pressure reducing gas stations, pressure reducing and metering stations as well as hot tapping
- OptiValve™ - operation with T-key or hand wheel
- OptiValve Plus™ – operation with T-key, hand wheel and retrofit position indicators
