SURFACE BOX FOR VALVE

DN40 - DN300

Surface Boxes are designed for building in paths, roadway or non-surfaced roads to allow access to valves installed underground.

Application:

Design features

- Surface Box according to DIN 4056
- Load resistance class A15 (15 kN) according to EN 124-1

Technical Details:

Coating:

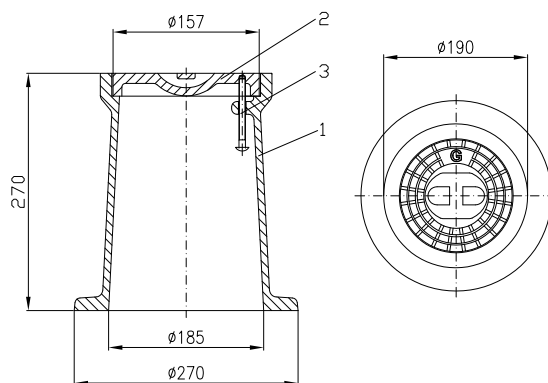

Asphalt coating for ductile iron surface box

AA05/1

No	Part Name	Material
1	Body	Grey Cast Iron EN-GJL-250
2	Bonnet	Grey Cast Iron EN-GJL-250
3	Bolt	Steel FeZn5 gr 5.8

DN	DN40-300
AA05/1	AA0501
Weight [kg]	13
