CAST STEEL SURFACE BOX FOR FIRE HYDRANT

DN80 - DN100

Surface Boxes are designed for building in paths, roadway or non-surfaced roads to allow access to valves installed underground.

Application:

Design features

- Surface Box according DIN 4055
- Load resistance class A15 (15 kN) according to EN 124-1

Technical Details:

Coating:

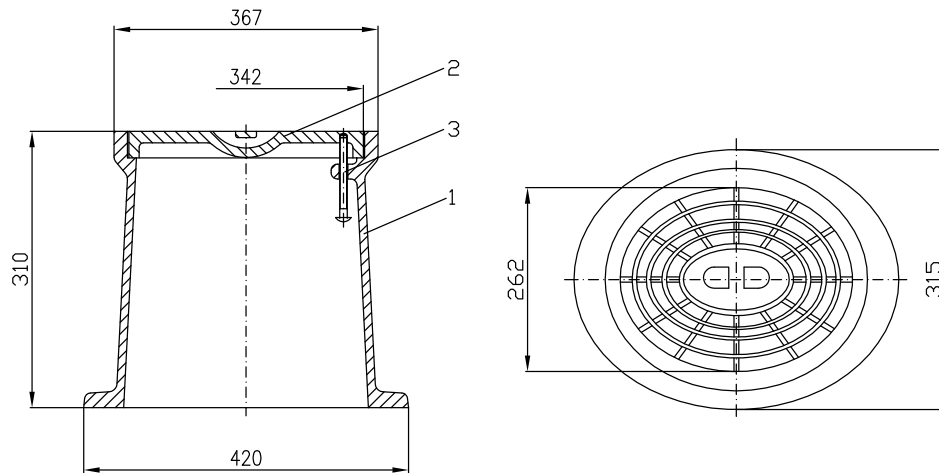

Asphalt coating for ductile iron surface box

AA05/2

No	Part Name	Material
1	Body	Grey Cast Iron EN-GJL-250
2	Bonnet	Grey Cast Iron EN-GJL-250
3	Bolt	Steel FeZn5 gr 5.8

DN	DN80-100
AA05/3	AA0500
Weight [kg]	32,1
